

2023 GRANT EVALUATION FORM

The Northville Community Foundation is interested in learning about the results of your project, the lessons you have learned, and how those lessons will be applied in the future. We see this grant evaluation as a joint management tool to obtain feedback to improve programs and stimulate good planning. We realize that some grants may not achieve all of their initial objectives and encourage you to be candid about your experiences.

Please complete this evaluation form by July 31. This form must be received before future grant requests will be considered by the NCF.
